

# 2003 Infiniti G35 Sedan Service Manual

As per Nissan's intention of creating a world beating sports car, the GT-R brand was revived as part of...

ACC technology is regarded as a key component of future generations of intelligent cars. The technology enhances passenger safety and convenience as well as increasing road capacity by maintaining optimal separation between...

Nissan GT-R

*scale models—one representing the GT-R and the other replicating the Infiniti G35 test mule. Drawing data from its full sized version's testing at the*

The Nissan GT-R (Gran Turismo–Racing; model code: R35; Japanese: ???GT-R; Nissan GT-R) is a series of cars built by Japanese marque Nissan from 2007 to 2025. It has a 2+2 seating layout and is considered both a sports car and a grand tourer. The engine is front-mid mounted and drives all four wheels. It succeeds the Nissan Skyline GT-R, a high-performance variant of the Nissan Skyline. Although this model was the sixth-generation to bear the GT-R name, it is no longer part of the Skyline line-up. The car is built on the PM platform, derived from the FM platform used in the Skyline and Nissan Z models. Production is conducted in a shared production line at Nissan's Tochigi plant in Japan.

The first iteration was the M30 Coupé/Convertible, rebadged variants of the JDM Nissan Leopard. After a hiatus, the M nameplate was used for Infiniti's short-lived mid-luxury M45 sedan, a rebadged version of the Japanese-spec Nissan Gloria and Infiniti's subsequent flagship M35/45 and M37/56/35h/30d, based on the JDM Nissan Fuga.

Toyota 4Runner

*years for the 2003 and 2004 model years. Only the Chevrolet Astro, Infiniti G35, and BMW 7 series had lower death rates. In early 2003, Toyota added an*

The Toyota 4Runner is an SUV manufactured by the Japanese automaker Toyota and marketed globally since 1984, across six generations. In Japan, it was marketed as the Toyota Hilux Surf (Japanese: ??????????, Hepburn: Toyota Hairakkusus?fu) and was withdrawn from the market in 2009. The original 4Runner was a compact SUV and little

more than a Toyota Hilux pickup truck with a fiberglass shell over the bed, but the model has since undergone significant independent development into a cross between a compact and a mid-size SUV. All 4Runners have been built in Japan at Toyota's plant in Tahara, Aichi, or at the Hino Motors (a Toyota subsidiary) plant in Hamura.

Nissan 350Z

*6-speed manual models and Track models (mid-year introduction), which included the updated VQ35DE 300HP/260TQ &#039;Rev-up&#039; engine and new updated CD009 manual transmission*

The Nissan 350Z (known as Nissan Fairlady Z (Z33) in Japan) is a two-door, two-seater sports car that was manufactured by Nissan Motor Corporation from 2002 until 2009 and marks the fifth generation of Nissan's Z-car line. The 350Z entered production in 2002 and was sold and marketed as a 2003 model from August 2002. The first year there was only a coupe, as the roadster did not debut until the following year. Initially, the coupe came in Base, Enthusiast, Performance, Touring and Track versions, while the Roadster was limited to Enthusiast and Touring trim levels. The Track trim came with lightweight wheels and Brembo brakes, but its suspension tuning was the same as all other coupes. The Nissan 350Z was succeeded by the 370Z for the 2009 model year, although the roadster was sold alongside...

The name "4Runner" was created by copywriter Robert Nathan with the Saatchi & Saatchi advertising company as a play on the term "forerunner..."

List of automobiles known for negative reception

*the \$35,000-plus buy-in, and many simply bought an SLK instead. Or an Infiniti G35 or a BMW 3-series, both of which were more fun to drive than the Crossfire*

Automobiles are subject to assessment from automotive journalists and related organizations. Some automobiles received predominantly negative reception. There are no objective quantifiable standards, and cars on this list may have been judged by poor critical reception, poor customer reception, safety defects, and/or poor workmanship. Different sources use a variety of criteria for including negative reception that includes the worst cars for the environment, meeting criteria that includes the worst crash test scores, the lowest projected reliability, and the lowest projected residual values, earning a "not acceptable" rating after thorough testing, determining if a car has performed to expectations using owner satisfaction surveys whether they "would definitely buy the same car again if given..."

Infiniti M

*nameplate was used for Infiniti&#039;s short-lived mid-luxury M45 sedan, a rebadged version of the Japanese-spec Nissan Gloria and Infiniti&#039;s subsequent flagship*

The Infiniti M is a line of mid-size luxury (executive) cars from the Infiniti luxury division of Nissan. From 2013 (model year 2014) on it has been marketed as the Infiniti Q70, reflecting the company's later naming formula.

Control is based on sensor information from on-board sensors. Such systems may use a radar, laser sensor or a camera setup allowing the vehicle to brake when it detects the car is approaching another vehicle ahead, then accelerate when traffic allows it to.

Adaptive cruise control

*applies brakes. 2001: Infiniti introduced laser &quot;Intelligent Cruise Control&quot; on the 2002 Infiniti Q45 Third generation F50 and 2002 Infiniti QX4. 2001: Renault*

Adaptive cruise control (ACC) is a type of advanced driver-assistance system for road vehicles that automatically adjusts the vehicle speed to maintain a safe distance from vehicles ahead. As of 2019, it is also called by 20 unique names that describe that basic functionality. This is also known as Dynamic cruise control.
